ABOUT

Seishiro Endo Shihan, born 1942, is an 8th dan ranked Aikikai aikido master teacher. Endo Shihan is among the few living people who studied directly under aikido founder Morihei Ueshiba.

“I began to ceaselessly examine and confirm my state of mind: myself when it went well, myself when it went poorly, myself when I was trying to defeat my partner, myself when I was feeling fear, myself when I was feeling insecure, etc. From these confirmations, I learned the importance of ceaselessly keeping my mind calm.”
